San Miniato Basso",

and "I Piccoli Archi" in

concert: an hour of varied music, with a violin repertoire from entertainment and popular music to classical music, enriched with historical notes and curiosities

A guided tour of the Via Angelica will follow.

MUTART

MUSEO DEL TARTUFO DELLE COLLINE SAMMINIATESI

Via IV Novembre, 20 - San Miniato
Tel. 0571 42745 - www.mutartsanminiato.it

The San Miniato Truffle Museum tells the story of the land where the largest truffles in the world are born. It is certainly a generous land, which produces truffles twelve months a year, unique in the world for the most prized, the white Tuber Magnatum Pico; the most fruitful truffle area in Tuscany with its center in the city of San Miniato, including 30 municipalities between the provinces of Pisa and Florence. It is a land of records: here the largest white truffle in the world was found, the most expensive and the largest of the 21st century. Since the last decades of the 19th century, hunters have walked, with their dogs, the paths of this territory and for more than a century the truffle has been marketed and processed. In San Miniato, since 1969, the oldest White Truffle Market Exhibition in Tuscany has been organized and, since 1982, the truffle hunters of these hills have given life to the "Associazione Tartufai delle Colline Samminiatesi" the oldest and largest in our region. In 1990, San Miniato, together with ten other municipalities, founded the "Associazione Nazionale Città del Tartufo", which today has over seventy members. The Truffle Museum of the Colline Samminiatesi is part of the Integrated Museum System of San Miniato and is a space of iconic-visual, sensorial, cultural experiences of great value.
